

Website Plans for Local Businesses

A professional, mobile-friendly website — without the tech headaches.

Before we start: your business needs an existing **Google Business Profile** (the listing that shows up on Google Maps). We use it to build your site and connect the two.

OPTION 1

Own It

\$600 one-time

We build it, hand you the keys, and you're all set.

- ✓ Custom mobile-friendly website (about 5–6 pages: Home, Services, About, Gallery, Reviews, Contact)
- ✓ Domain setup (your web address)
- ✓ Hosting setup
- ✓ Connected to your Google Business Profile
- ✓ Basic Google search setup
- ✓ **Free demo + 2 rounds of changes** during the initial build (3 versions total)
- ✓ Full handoff — **you own the domain and website files**

After handoff, you pay your own domain renewal (about \$10–20/year). Need changes later? They're available on request and quoted separately.

MOST HANDS-OFF

OPTION 2

Worry-Free Monthly

\$59/month + \$50 setup

Same great website — we keep it running and up to date.

- ✓ Everything in Option 1's website and setup
- ✓ **Free demo + 2 rounds of changes** during the initial build (3 versions total)
- ✓ **One update per month included** — hours, photos, specials, text
- ✓ Hosting and domain renewals covered
- ✓ Site monitoring
- ✓ **No long-term contract** — cancel anytime

Monthly updates don't roll over. Larger changes (like new pages) are quoted separately. We own and maintain the domain and website while you're subscribed — see "If you cancel" below.

If you cancel Option 2

The price is **\$600 minus the monthly payments you've made** (the \$50 setup fee isn't counted), with a **minimum of \$150**. The buyout is paid in full before we transfer everything to you. If it isn't purchased within 30 days, we keep the domain and website.
